

## NUS Centre for Language Studies (CLS) Placement Tests in Semester 1, AY2020/2021 for Yale-NUS Students

Placement tests are for students who do not meet the pre-requisites of advanced level NUS CLS modules.

### I. NUS CLS Placement Tests

Students who are taking placement tests are to follow up with NUS CLS directly. Information on modules offered, NUS CLS coordinators and placement tests dates, will be published on the [NUS CLS website](#). You will be notified of the outcome of the placement test by NUS CLS. Thereafter, you can proceed to register for the module via [ModReg@EduRec](mailto:ModReg@EduRec) during Round 2 or Round 3.

### II. Important Notes for Students

1. If you have no prior knowledge of the language that you are interested to study, you do not need to sit for any placement tests. Please register for the beginning level NUS CLS module(s) in [Canvas](#) (link active only in Round 1) in Round 1 or [ModReg@EduRec](mailto:ModReg@EduRec) in Round 2 and Round 3.
2. If enrolment in the NUS CLS module leads to an overload, you **will not be pre-allocated** to the module. Instead, you may drop an allocated module and register for the NUS CLS module via [ModReg@EduRec](mailto:ModReg@EduRec) during Round 2 or Round 3. If you have obtained approval from your Assistant Dean to overload, you may register for the overload NUS CLS module in Round 3.
3. For NUS CLS modules with multiple tutorial class options, you will only be pre-allocated to the main lecture class and you will need to select your tutorial class via [ModReg@EduRec](mailto:ModReg@EduRec) in Round 3. Please refer [here](#) for the NUS ModReg schedule for the timeline for tutorials selection.
4. Owing to campus zoning due to COVID-19, NUS CLS modules will be taught via Zoom in Semester 1, AY2020/2021.
5. For more information on language modules, please visit [here](#).
