

5MC Special Project in Science Registration Form

This module provides academic credit of major research projects conducted by students prior to the Capstone project. This is an individual project which allows students with extraordinarily strong preparation to receive academic credit for research conducted at the level of a capstone project prior to the fourth year. This module is not to be substituted for the capstone project. This module can only be taken once in the student's candidature.

A student wishing to read **Special Project in Science** should not be engaged or intend to be engaged in any forms of paid or unpaid internship or research work relating to **this module**. In consultation with a faculty member, the student should craft a proposal outlining the nature of the project and the work the student intends to finish during the semester. The deadline to submit the proposal to Yale-NUS Registry is **5pm on Friday, 13 August 2021**. Yale-NUS Registry will update students and faculty on the application status by **Friday, 20 August 2021** as well as to officially enroll approved students into the module.

Kindly read the following conditions carefully before submitting the Registration Form:

1. A student is allowed to read up to a maximum of 2 Independent Study modules [Independent Reading and Research (IRR), Independent Language Study and Research (ILSR) and/or Special Project in Science (SPS)] in a semester.
2. A student may read up to a **maximum of 7.5MC** from IRR, ILSR and/or SPS throughout the student's undergraduate career. If you have exceeded this limit, you are required to obtain the support of the Head of Studies of your major/minor and make an [appeal](#) to the Committee on Academic Standards (CAS) via your Assistant Dean of Students.
3. A student may count up to a **maximum of 5MC** from IRR, ILSR and/or SPS towards the **major or independent minor** with prior approval from Head of Studies (Major) or Coordinator (Independent Minor).
4. A student may count up to a **maximum of 2.5MC** from IRR and/or ILSR modules towards the requirements for a **minor** with prior approval from the Head of Studies (Minor).
5. In extremely rare circumstances, an exception to the maximum above may be approved by the Chair of the Curriculum Committee following the endorsement of the relevant Divisional Director.
6. SPS cannot be counted towards requirements for a minor in Science.
7. By default, IRR, ILSR and/or SPS are graded Completed Satisfactory (CS) or Completed Unsatisfactory (CU). However, if you wish to count the Independent Study module to a Major or Minor, the Independent Study module must be registered to be Letter Graded. Request to retroactively change grading scheme will not be approved after Instructional Week 2 (i.e. end of add module period).

This section is applicable if you wish to count the Special Project in Science (SPS) module to a major:

- Only Letter Graded SPS modules can count towards Major. Approval from the HOS of the respective major must be obtained if you check the following box.
- By default, SPS modules are graded Completed Satisfactory (CS) or Completed Unsatisfactory (CU).
- If you checked this section, you will be registered to read the SPS module as Letter Graded. Once the module is allocated as Letter Graded, the decision is irrevocable. You may however exercise S/U option to convert the Letter Grade to Satisfactory/Unsatisfactory (S/U) grade at the stipulated S/U declaration period at the end of the semester. Once you have exercised the S/U option, the module can no longer count to the Major although you have obtained prior approval from the HOS/Coordinator during the module registration period.
